

How much is 100w solar panel in ghana

How much is 100w solar panel in ghana

Dirt and water resistant
Highly portable slim folding design
Charge upto 100w per hour!
Efficient 95% light transmission
Perfectly matches your Boost
1 year warranty with dedicated UK support team

How does it work?
Giving you portable power, anywhere you go, use with your Boost power system or charge directly from the outlets
How fast will this charge my battery?
The better the weather, the quicker it will charge. It's designed to charge 100w per hour in peak conditions, but the larger the battery, the longer it will take to charge completely.
Can I pick them up?
Of Course! Just contact us to arrange a collection date and time.
