

## India photovoltaic pv systems

Adani Green Energy Ltd has clarified that its directors, namely, Gautam Adani, Sagar Adani and Vneet Jaain have not been charged with violations of the U.S. Foreign Corrupt Practices Act (FCPA) in the indictment by US prosecutors in an alleged solar-related bribery case.

Martin Schachinger, founder of pvXchange , says the 8% price drop in November for solar modules could mark the end of sustained declines, as market signals are pointing to a possible recovery.

New research from Italy shows the importance of considering power plant dispatchability in PV project planning. The scientists claim assessing a project's levelized cost of energy could be misleading, especially with variable and sometimes negative electricity prices.

THDC India Ltd has invited Expression of Interest (EOI) from technical consulting agencies for preparation of detailed project report of floating solar power projects at various locations across India.

The prevailing levelised cost of Green Hydrogen (LCOH) is 1.75 times that of grey hydrogen and 1.50 times that of brown hydrogen, posing a significant barrier to its adoption. Achieving economic viability of Green Hydrogen to around \$2.1 per kg requires a 35%-40% drop in electrolyser prices and a 12%-14% improvement in efficiency apart from supportive policies, says a new report by CareEdge Ratings.

Company co-founder Peter Carlsson steps down from CEO position at Northvolt in the wake of Chapter 11 announcement in the United States. The Swedish battery maker has embarked on a debt restructuring process and is seeking new sources of funding.

Jakson Green Infinity has shipped its first batch of 3.8 MW electrolysers to produce hydrogen on-site at India's inaugural green hydrogen refueling station for urban mobility in the National Capital Region (NCR)
