## Inverter batteries in ghana

For more information Inverter and battery please click on the downloads. Here you will find data sheet downloads available with additional technical information on. Please contact us if you need any help with regards to this hybrid solar kit.

Single phase hybrid inverter ideal for new installation and retrofit exist solar system. Stunning IP65 protection level, more durable and flexible for installation, multiple programmable working modes, decide by yourself how to realize self-sufficiency and increase system self-consumption. And the EPS output can even provide backup supply during grid absence.

Growatt uses lithium-iron-phosphate (LiFePO<sub>4</sub>) battery technology, which is one of the most reliable, safe and long-lasting lithium battery technologies available. The module can be purchased individually to expand a previously installed rack. It's not a stand-alone product. A total of 2 batteries can be put together (total of 13 kWh). A BMS system controls and monitors batteries effectively and safely.
