

Kazakhstan data center energy storage

Statista R identifies and awards industry leaders, top providers, and exceptional brands through exclusive rankings and top lists in collaboration with renowned media brands worldwide. For more details, visit our website.

The Data Center market includes revenue, revenue change, average spend per employee, and key player market shares as key performance indicators. Market values represent revenues paid to primary vendors at the manufacturer price level either directly or through distribution channels (excluding VAT). Revenues are generated through both online and offline sales channels and include spending by consumers (B2C), enterprises (B2B) as well as governments (B2G). Detailed definitions of each market can be found on the respective page where the market data is displayed.

Kehua, a global leading expert in power electronics with 35 years of experience, showcased its advanced data center and UPS solutions at the data center seminar held in Kazakhstan. Over 80 industry professionals and elites from authoritative organizations like the Uptime Institute, as well as other sectors including data centers, telecommunications, education, and finance, attended the event, joining the celebration of the data center industry.

At the beginning of the event, Mr. Sun Jinshan, Kehua's Regional Senior Director for the CIS region, welcomed the guests and highlighted Kehua's vision of deepening market presence in Kazakhstan and fostering mutual development with partners. He emphasized Kehua's commitment to providing high-reliability and high-quality cutting-edge data center and UPS solutions, underscoring Kehua's role in supporting Kazakhstan's energy transition and digital development.

Moreover, through interactive VR experiences, the attendees were virtually immersed in Kehua's world, providing a vivid demonstration of Kehua's research and development capabilities, production capacity, and high-quality controls, showcasing Kehua's position as an industry leader and its commitment to excellence.

Kehua's product experts presented the latest Wise Aisle 7.0 modular data center solution, showcasing Kehua's forward-thinking approach to data center design, which garnered enthusiastic responses and active discussions, receiving unanimous praise.
