Lemoen battery manufacturers

Efficient charging with bulk charge voltage of 28.8Vdc and float charge range of 26.4-26.8Vdc maximizes battery lifespan. Reliable performance with a max charge/discharge rate of 100A powers your essential devices and appliances. Power your life with Lemoen Lithium Batteries--run lights, fans, TVs, and charge devices effortlessly.

Embrace energy independence with reliable and efficient Lemoen Eco Lithium-Ion Batteries, ideal for power outages or off-grid living. Trust in Lemoen's safety features, ensuring protection against overcharging and short circuits. Built to last with robust construction and high-quality materials.

The Lemoen Eco 2.56kWh Li-Ion Battery (Rack Mount) has a nominal voltage of 25.6 Volts. This voltage is commonly used in energy storage systems and is compatible with many types of commercial and industrial inverters.

Introducing the Lemoen 2.56KwH 25.6V 100Ah LI-Ion Battery, a game-changer in the world of energy storage. This cutting-edge battery is designed to revolutionize your power needs, offering unrivaled performance, reliability, and convenience.

With a capacity of 2.56KwH and a voltage of 25.6V, this LI-Ion battery packs a punch, providing ample power to meet your energy demands. Whether you're powering your home, RV, boat, or off-grid system, the Lemoen battery ensures a seamless and uninterrupted energy supply.

One of the standout features of the Lemoen battery is its impressive 100Ah capacity. This means you can enjoy extended periods of power usage without worrying about recharging frequently. Say goodbye to the inconvenience of frequent battery replacements or the hassle of carrying multiple batteries. The Lemoen battery offers long-lasting power, allowing you to focus on what matters most.

Not only does the Lemoen battery offer exceptional performance, but it also boasts a range of advanced features. Its lithium-ion technology ensures high energy density, resulting in a compact and lightweight design. This makes it easy to install and transport, providing you with flexibility and convenience.

Safety is a top priority with the Lemoen battery. It incorporates advanced protection mechanisms, including overcharge, over-discharge, and short-circuit protection. This ensures the longevity of the battery and safeguards your valuable equipment from potential damage.

The Lemoen battery is also designed with user-friendliness in mind. It features a built-in battery management system (BMS) that monitors and optimizes the battery's performance, ensuring efficient energy utilization. Additionally, the battery is maintenance-free, eliminating the need for regular upkeep and saving

Lemoen battery manufacturers

you time and effort.

By choosing the Lemoen 2.56KwH 25.6V 100Ah LI-Ion Battery, you're investing in a reliable and high-performance energy storage solution. Experience the freedom of uninterrupted power supply, the convenience of a lightweight and compact design, and the peace of mind that comes with advanced safety features.

Upgrade your energy storage system with the Lemoen battery and unlock a world of possibilities. Whether you're embracing sustainable living, exploring the great outdoors, or seeking a reliable backup power source, the Lemoen battery is your trusted companion. Embrace the future of energy storage and enjoy the value it brings to your life.

All LEMOEN batteries use LifePO4 cells, our cell manufacturer is the leader in cell manufacturing for EV and Energy Storage batteries in the world. Excellent BMS design, with a 10 Year Cell Warranty & 5 Year BMS Warranty. Got positive and negative short circuit protection on the BMS. Lemoen high quality and durable BMS got communication with most Inverter manufactures. Can be Paralleled up to 15 units. Lemoen 11CM Slim line design that gives the least obstruction. 1C charge and discharge rate. Lemoen battery is design for a long service life, beyond 15 years.
