Lockable server rack wall mount

Lockable server rack wall mount

WM2 Racks are 600w x 600d with lockable, removable side panels for a secure, multi-usage wall mount data cabinet. WM1 Racks are available in smaller depths and don"t offer side panel access - ideal for more basic usage and quick installations.

Eaton"s Tripp Lite business provides industry-leading digital infrastructure solutions to power and connect everything in your world. Our product and expert personnel allows us to bring you comprehensive and innovative solutions backed by quality, service and support you can trust.

To ensure your valuable equipment stays secure, the side panels and front door lock to prevent unauthorized access. The reversible front door can open left or right to accommodate various rack applications and rooms. Convenient top and bottom ports with removable covers allow easy cable routing through the cabinet.

The SRW6U comes fully assembled and ready to mount to the wall, or use Tripp Lite"s optional SRCASTER caster kit to make it a mobile rolling rack. Square and threaded mounting holes and numbered rack spaces make equipment installation easy. The vertical mounting rails adjust in 7/8-inch increments to accommodate equipment up to 16.5 inches deep.

The SRW6U comes with a 5-year product warranty. It"s manufactured in compliance with strict RoHS specifications, reflecting Tripp Lite"s commitment to environmental responsibility. The SRW6U provides physical equipment and media security required for PCI DSS (Payment Card Industry Data Security Standard) compliance.

The 6u wall mount rack enclosure rackcabinet w/ door and side panels. SRW6U wall-mount rack enclosure cabinet package includes 12-M6 screws, 12 M6 cage nuts, 12-M6 cup washers, 12-12 to 24 screws, removable mounting plate, 3-mounting plate screws, 2 Keys.
