Built to last
High quality, low cost replacement batteries for thousands of devices
AJC Replacement Sealed Lead Acid (SLA) AGM Batteries
Millions of batteries sold globally
Buy AJC Batteries with confidence

AJC Battery strictly adheres to international quality standards to provide customers with excellent products and consistent quality. From the components and raw materials to each batch produced, quality tests and procedures are in place, implemented and maintained.

AJC Battery Absorbed Glass Mat (AGM) technology is at the core of our batteries. Puncture resistant glass mat separators absorb all the electrolytes, which lowers internal resistance and results in effective high-rate, short-term power.

AJC Battery only uses brand new lead. Lead impurities can significantly decrease battery performance and

lifespan. Our strict manufacturing process eliminates trace impurities and yields high quality, dependable batteries.

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.
