

Malaysia electric vehicle costs

According to WapCar, the current cheapest electric car in Malaysia is the BYD ATTO 3 which starts at RM149,800. Additionally, the most expensive one is the Mercedes-Benz EQS which retails at a whopping RM698,888. Aside from the price of the car itself, you also need to consider their charging fees.

Understanding the costs, savings, and subsidies associated with EVs is crucial for consumers to make informed decisions. This comprehensive guide aims to navigate through the intricacies of financing and owning an EV in Malaysia. It delves into the initial costs, operational expenses, and the savings potential of electric vehicles, alongside a ...

In the end, it depends on your budget and needs. Although it may be cheaper to maintain an EV in the long run, it has quite hefty costs to start up because of the car prices to charging station installation fees. The good news is that the road tax for owning an EV in Malaysia is... RM0! Until the end of 2025, at least. :P
