

Marine lithium batteries for sale

Marine lithium batteries for sale

Monster Marine Lithium is a battery company designed and built for anglers by anglers. We here at MML got tired of dragging around all the extra weight, not to mention the unexpected acid battery dying on us during a bass tournament, so we developed and designed a battery that would allow us to troll all day and run all the needed electronics, live wells, lights, and even video cameras in your boat without worries.

At Abyss Battery(R), we are experts at engineering performance-driven lithium batteries for the marine industry. Our renowned products have made waves around the world, used by dealers and OEM boat builders alike - yet nothing stops us from pushing further to develop even greater solutions!

We're not just another lithium battery manufacturer; we're a group of people who believe in pushing boundaries, conquering new territory, and creating change. We live to create innovative solutions that empower you to go farther than ever before -- no matter where life takes you.

Our 12V Dual-Purpose LiFePO4 batteries are not just any marine batteries; they are a beacon of innovation and performance, designed to effortlessly start and power outboard motors while excelling in deep cycle applications.

Perfect for kite fishing and deep drop bottom fishing, our innovative batteries eliminate the hassle of under-gunnel installations and prevent cord tangles and trips. Say goodbye to carrying extra batteries on your boat deck. Boost your fishing efficiency and focus on what truly matters - the catch.

Upgrade your marine experience with Abyss Battery's cutting-edge 24V and 36V trolling motor lithium batteries. Whether you're a boat owner, professional angler, dealer, or manufacturer, our batteries are engineered to deliver unmatched power, reliability, and efficiency pack yet powerful, they provide superior capacity and amp-hours without the bulk, ensuring you get the most out of your trolling motor.

Trusted in high-stakes tournaments and by industry professionals, Abyss Batteries are not just a choice--they're a strategic advantage. Choose Abyss Battery and experience a new standard in marine power, where cutting-edge technology meets dependable performance.

Stay powered up wherever you go with the Abyss Battery 1600W Portable Power Station. Designed for rugged outdoor adventures and emergency backup, this compact powerhouse delivers reliable energy on demand. With multiple AC and USB outlets, quick recharge capabilities, and a durable design, it's perfect for camping, fishing, or handling power outages. The 1600W capacity ensures you have ample power for all essential devices, giving you peace of mind and continuous access to electricity in any situation.

Ensure your boat's power is always at its peak with our innovative Bluetooth(R) Lithium Batteries. Designed

Marine lithium batteries for sale

for modern boaters and fishermen, these batteries offer real-time monitoring and seamless updates via an intuitive app available on Apple(R) and Android(TM) devices. Stay informed on your battery's performance, track its status, and receive the latest software updates--all from the convenience of your smartphone.

Our lithium iron phosphate batteries demonstrate the highest safety performance in the industry while also offering increased current, capacity, and durability in a smaller size.

Abyss Batteries are more reliable and safer than comparable brands because they cannot short out due to our design construction. Cell holders within our batteries provide a more robust stable, and firm internal structure that protect and separate every cell to avoid any circuit short risk caused by extreme vibration or impact.

Upgrading your current marine battery system is? a fast and easy conversion. Abyss Batteries are designed to be a direct drop in replacement for? AGM and lead-acid batteries. ONE ABYSS 36V Lithium will replace THREE 12V Group 31 Marine Deep Cycle AGM Batteries in series to power your 36V trolling motor. If you need more power or voltage for larger boats and electrical systems, our batteries can be wired in series and parallel tailoring to your needs.
