Offenbach operas list

The stage works of Offenbach (with the two exceptions of the operas *Die Rheinnixen* and *The Tales of Hoffmann*) are broadly referred to as "operettas" in English references, even though only 16 of them were designated as operettes by the composer. Offenbach called a further 8 operette bouffe, and there is a single "operette fantastique". There are 24 operas comiques, and 24 operas bouffes, together with 2 "operas bouffes feries".

Other minor subgenres include opera bouffon (5), bouffonnerie musicale (3), sayn?te (2) pi?ce d'occasion (2) and revue (2). Offenbach invented names for some individual works: "anthropophagie musicale", "chinoiserie musicale", "com?die ? ariettes", "conversation alsacienne", "l?gende bretonne", and "l?gende napolitaine". There are also one each of the following; "fantasie musicale", "op?ra f?erie", "tableau villageois", and "valse".

Theatres in the English-speaking centres used music by Offenbach to create pasticcio during the 1860s and 70s. Many of these pieces were made to libretti completely unknown to Offenbach. Vienna also saw examples of re-use of his music, and the practice continued into the 20th century. Examples include:

Le carnaval des revues and *Les hannetons* include pre-existing scores but were created under Offenbach and include some new music by him.
