

Pakistan solar energy market

Pakistan solar energy market

The Pakistan Solar Energy Market size in terms of installed base is expected to grow from 1.41 gigawatt in 2024 to 9.53 gigawatt by 2029, at a CAGR of 46.55% during the forecast period (2024-2029).

Solar energy is the heat and radiant light from the sun that can be harnessed with technologies such as solar power (used to generate electricity) and solar thermal energy (used for applications such as water heating).

The Pakistani solar energy market is segmented by end users (residential, commercial, and utility). For each segment, market sizing and forecasts have been done based on installed capacity (MW).

The Pakistani solar energy market is semi-fragmented. Some of the major players in the market (in no particular order) include Reon Energy Limited, Alpha Renewables (SMC-Pvt) Ltd, Zonergy, Shams Power Limited, and Yello Door Energy.
