

Photovoltaic pv systems chisinau

Photovoltaic pv systems chisinau

To the interest of all eligible Construction companies and Contractors interested in implementing construction measures/for endowing three public buildings with Photovoltaic (PV) Systems in Chisinau city center.

Following the efforts undertaken by the Government of Moldova to build the resilience of its institutions, including the challenges pertaining to the potential energy crisis, the BMZ and EU co-funded Project "Strengthening the Rule of Law and Anti-Corruption Mechanisms in the Republic of Moldova" (ACT), implemented by the German Development Cooperation through GIZ, is planning to support the partner institutions by providing systems for sustainable energy supply.

As a response to the current energy crisis the Republic of Moldova is confronted with, the Project will provide systems for sustainable and independent energy supply (photovoltaic systems) for the system relevant anti-corruption institutions to enable them to continue their operations in the event of power shortages and in a sustainable and environment-friendly manner.

GIZ Moldova is interested in contracting eligible Construction companies and Contractors that qualify to implement one or several Lots/projects of construction and to endow three public buildings with PV for the objects specified below. All activities are to be implemented in the framework of the project "Strengthen the Rule of Law and Anti-Corruption Mechanisms in the Republic of Moldova".

The contractor shall be able to provide by his own means the needed construction materials, infrastructure, resources, and technical equipment to implement the construction works as specified above.
