Revive IT is continually improving and progressing towards its main goal. We'd like to give you the option to keep up to date with what is happening right now at Revive IT. By submitting your details below, we'll keep you in the loop with any updates that occur.

*Most of our clients enjoy a free service. If the equipment you have for recycling won't generate enough revenue to cover our internal costs, we'll offer a quote at the time of booking for our secure IT recycling service.

At Crow Metals Ltd, we specialize in scrap metal recycling, accepting both ferrous and non-ferrous metals. With three conveniently located yards in Romford, Dagenham, and Rainham, we serve the entire East London and Essex region. With a legacy dating back to 1943, our 80 years of experience have earned us a strong and trusted reputation within the community.

From small copper lots from residential projects to substantial 30-tonne shipments from corporate partners, our commitment to exceptional customer service remains unwavering. As proud members of the BMRA (British Metal Recycling Association), we are dedicated to sustainable practices, actively contributing to the reduction of metal waste destined for landfills. Partner with Crow Metals in Romford for efficient scrap metal solutions and join us in our mission to protect the environment and reduce carbon emissions.

Any household or garden waste can be taken to the reuse and recycling centre during the opening times and disposed of free of charge. Soil, brick, rubble and construction waste created from the repair or alteration to your own property may be disposed of but there are restrictions in place, please see below for further details.

As the centre can be extremely busy at weekends and around bank holidays, try to plan your journey to the centre to avoid these times. The site must close at the times below and you may not be allowed in if there is a queue of cars ahead of you. Please listen to and treat our site staff with respect.

Separate your waste prior to travelling so that as much as possible can be reused and recycled. If you have items in good condition speak to a member of staff who will direct you to the reuse area.

If you are a business/trader, you can only take your commercial waste to the site using the entrance on Churchfields Road. More information and details on the cost to use the site are below.

There are restrictions in place for the disposal of waste from a householder carrying out their own construction or demolition works, including preparatory works. Due to new legislation, from 31 December 2023, residents will be able to bring in a limited amount for disposal for free. Each householder is permitted to bring in the following per visit:
