The CEC held a public workshop on May 29, 2024 on the summer reliability outlook. Speakers covered new clean energy resources, forecasted weather and wildfire conditions, and an update on anticipated system reliability conditions.

The Energy Code sets standards for the energy efficiency of newly constructed and renovated buildings, and reduces their greenhouse gas emissions. The 2025 updates to the Energy Code will go into effect January 1, 2026.

The California Energy Commission is leading the state to a 100 percent clean energy future for all. As the state's primary energy policy and planning agency, the Energy Commission is committed to reducing energy costs and environmental impacts of energy use while ensuring a safe, resilient, and reliable supply of energy.
