

Sao tome and principe energy management

The EU supports the Sustainable Energy For All (SE4All) Initiative's objectives and places a strong emphasis on Sub-Saharan Africa (SSA) where the needs are the greatest. To this end, the European Commission has created a EUR 65 million Technical Assistance Facility (TAF) to support developing countries which are committed to reach the SE4All objectives and to significantly scale up investment in the energy sector.

Gesto was selected to assist the EU's SE4ALL TAF in the evaluation of S?o Tom? and Pr?ncipe's energy sector and of its institutional and political framework, in order to support the development of the country's energy sector roadmap.

The main objective of the project was to provide an overview of available political, economic and sectorial information (reports, indicators, statistics) for the energy sector of the country, organized alongside two thematic areas.

Gesto is an international company focused on energy consulting and renewable energy project development. Gesto was founded with the aim of being a leading adviser and a trustworthy partner in creating sustainable energy sectors, thus improving people's lives and making a world of difference.

Under the project Strengthening the Institutional Capacities of the General Regulation Authority, Gesto presented last week, a comprehensive assessment and outlook of the Energy Sector in S?o Tom? e Pr?ncipe.

The Public presentation, held at the Brazilian Embassy in S?o Tom?, was attended by local Government officials and representatives as well as members of the civil society and the Ambassador of China in S?o Tom? e Pr?ncipe and the Ambassador of Portugal in S?o Tom? e Pr?ncipe.

One of the main topics was the Tariff revision recommendation that was presented to the government of S?o Tom? e Pr?ncipe. These recommendations are part of the outputs of the project Strengthening the Institutional Capacities of the General Regulation Authority (AGER) that was developed by an international consortium of Gesto, MRC and Siglasul.
