

Self sustaining property for sale

Self sustaining property for sale

If you are interested in buying or selling a sustainable or self-sufficient home, off-grid land acreage, a survival property, or an alternative energy property of any size, this website is for you. United Country Real Estate offers an exclusive and diverse selection of listings for these properties throughout the United States.

Whether it's a sustainable mountain hunting lodge in Colorado; a remote, underground earth shelter in Montana; or a self-reliant bug out ranch in Arkansas with live water ... we'll help you sell it, or find it no matter how hard it is to locate.

United Country supports owners of these and other properties with a wide range of creative marketing and advertising programs. It's a unique approach that has given us an advantage over the competition for more than 95 years.

There are some great reasons to buy an off-grid or prepper property. They're perfect for people who enjoy the serenity of nature, outdoor recreation, or a private life away from the stress and regulations of a city. They also provide a safe haven from potential future catastrophes.

Maybe your ideal purchase is off-grid timberland for fishing and other outdoor recreation in Maine. Or perhaps you picture a wind and solar-powered cabin in New Mexico, with a greenhouse and water cistern. Whatever you imagine, United Country can help make your dream property a reality.

If you're looking to sell your survival property, off-grid home, secluded land, alternative energy house, hunting and recreational acreage, or another related real estate, you might ask, "Why should I list with United Country?". The answer is simple: We combine our marketing expertise with a customized approach designed for these properties. This allows us to reach targeted buyers and find you the best price in the shortest time possible.

To attract the right buyers, you need much more than a "For Sale" sign and local advertising. United Country does advertise your property locally, but also statewide, regionally and nationally from day one to reach a high number of potential buyers.

Additionally, we have a network of more than 3,500 franchise websites -- each one tailored to the specific lifestyle and property type expertise of our real estate professionals. These sites help market the best eco-friendly houses, hunting properties, cabins and lodges, mountain homes, off-grid timberland, and more available nationwide.

United Country Real Estate will help you find survival shelters, alternative energy homes, off-grid land, prepper properties and related sustainable real estate nationwide. When you want to locate a property that fits

Self sustaining property for sale

your lifestyle and goals, United Country is the top choice.

United Country Real Estate has the exclusive inventory, tools and expertise to ensure your survival property is seen by the most interested, targeted buyers in the market. Owners of self-sufficient homes, sustainable properties, land near rivers and lakes, hunting properties, and acreage in the mountains can all count on United Country to help sell your property for the best value.
