

Seoul retail store energy storage

November 15, 2023: Thermo Fisher Scientific said on November 13 it was inviting global battery makers to use its new South Korea facility as a clean energy development hub. The…

Energy Storage Journal (business and market strategies for energy storage and smart grid technologies) is a quarterly B2B publication that covers global news, trends and developments in energy storage and smart grid markets.

The Gyeongsan Substation – Battery Energy Storage System is a 48,000kW lithium-ion battery energy storage project located in Jillyang-eup, North Gyeongsang, South Korea. The rated storage capacity of the project is 12,000kWh.

The Nongong Substation Energy Storage System is a 36,000kW lithium-ion battery energy storage project located in Dalsung, Daegu, South Korea. The rated storage capacity of the project is 9,000kWh.

The Ulsan Substation Energy Storage System is a 32,000kW lithium-ion battery energy storage project located in Namgu, Ulsan, South Korea. The rated storage capacity of the project is 8,000kWh.

The West-Ansung (Seo-Anseong) Substation ESS Pilot Project-Battery Energy Storage System is a 28,000kW lithium-ion battery energy storage project located in Anseong-si, Gyeonggi, South Korea. The rated storage capacity of the project is 7,000kWh.

The Uiryeong Substation – BESS is a 24,000kW lithium-ion battery energy storage project located in Daeui-Myoen, Uiryeong-Gun, South Gyeongsang, South Korea. The rated storage capacity of the project is 8,000kWh.

Blending expert knowledge with cutting-edge technology, GlobalData's unrivalled proprietary data will enable you to decode what's happening in your market. You can make better informed decisions and gain a future-proof advantage over your competitors.

This information is drawn from GlobalData's Power Plants database, which provides detailed profiles of over 170,000 active, planned and under construction power plants worldwide.
