

Serbia energy storage applications

The bidding criteria specifies a company that has previously built power plants with a capacity of at least 25,000 MW, has more than 5,000 employees and a EUR 4.5 billion turnover per year, over the last three years. The bidder must also prove successful implementation of at least one contract of the same or similar nature up to the level of full project development and financing for projects with a total installed capacity of at least 400 MW.
