ShadeFix is an overall solution from SMA that optimizes the performance of PV systems at string level in every situation. Even in shading. SMA ShadeFix outperforms most conventional hardware solutions for shade management in PV systems.

For a hassle-free commissioning of systems consisting of one or multiple Sunny Tripower CORE2 inverters and optionally SMA Data Manager M it is absolutely necessary to follow the necessary steps in the shown order:

With the SMA Large Scale Energy Solution, you can generate sustainable solar power. Investing in a PV power plant is one of the safest and most profitable investment options and offers the best future prospects, as you will benefit from a system service life of over 20 years.

The SMA Large Scale Energy Solution stands for longevity, maximum performance and top quality. Highly integrated solutions for PV power plants with varying system structures provide you with maximum flexibility in implementation and options for expansion at all times. That gives you the highest possible yields for over 20 years and guarantees maximum return on investment.
