

Solar business in ghana

Solar business in ghana

Welcome to the SolarGo2 shop. We offer helpful, easy to understand information to guide you to an informed choice on the best solar products to suit your needs. Our solar panels and solar lights are some of the very best you can get.

Want to understand why you should buy solar panels from us? Simply click here and we will explain how to calculate the watts per square metre a panel has. This will show you what great performance our panels have over the competition and why picking us is the best solution.

Super happy with the service we got from SolarTherm. Very helpful and quick delivery for our solar battery – would recommend and use them again in the future. Thank you.

Just had a new solar system installed (11 panels and 2 batteries). Must say I was very impressed by the professionalism and quality of this company. Everything happened as it should have done. All the people from office staff to installers seem to know their subject well and everyone without exception was very pleasant to deal with. No hesitation in recommending them to others and I already have.
