Solar cell companies ghana

Global warming of 1.1 degrees Celsius is leading to unprecedented climate changes, from rising sea levels to more frequent extreme weather events, impacting ecosystems and communities worldwide.

Since our inception in 2009, we've been committed to renewable energy solutions, providing high-quality solar equipment and services to thousands of homes and businesses. Together, we've helped save massive CO2 emissions.

Our commitment to sustainable energy solutions is evident in our industry-leading manufacturing technology and continuous investment in raising the bar for green energy initiatives in Ghana.

We set out with a mission to make renewable energy accessible. We found there was a need to do things differently by advancing the know-how to realise our ambition. So we evolved with innovative ways of realising energy access through knowledge transfer.

As a women-led social enterprise, Power Sisters has affirmed high-level support for advancing gender equality on the road to ensuring universal energy access. Over 80 per cent of WIRE's board is comprised of women leaders from the finance, technology and renewable energy sectors.

We design and supply top-tier solar energy systems, focusing on reducing energy usage and fostering sustainable electricity generation. Our services extend from sophisticated solar PV systems for homes and businesses to dynamic public space lighting, ensuring every installation meets the highest standards of quality and efficiency.

Solar Light Company is a leader in the design and installation of solar electrification systems in West Africa. We provide packaged and custom solutions with lifetime customer support.

Our relationship with you, our customer, starts with a free evaluation of your site by one of our Energy Consultants. We work with you to determine your energy needs, and then recommend solutions that fit within your budget.
