Solar companies in tema ghana

With our partner Dutch Sustainable Energy group () we successfully completed many solar projects. DSE group was founded in 2009 and started with PV solar installations in 2010. They spring from a Dutch company called Arends Techniek, who have been active in installing solar in the Netherlands for a long time. They have done many installations ranging from small residential up to large-scale industrial systems. Together with their teams, they have commissioned over 2800 solar installations.

An investment In a photovoltaic solar installation is one of the best investment one can make. This installation will provide you with a clean, cheap and steady flow of electricity for the coming 25 years. This is the reason why we believe that it is best to invest in

The inverter for your solar system is the heart of your investment. We use only the best products for your solar installation with the best service and warranties. Fronius inverters. Read more;. Huawei inverters. Read more;. Sungrow inverters. Read more;. Kaco inverters. Read more;. Solax inverters. Read more;.

For the installation of solar panels on the parking grounds we have several options that we use. We also built solar car parks based on client specifications. For this, we work with Praxia. Praxia Energy designs, engineers and manufactures structural mounting systems for solar power installations (both ground level installations and

EPC partner for solar in Ghana. Building a solar installation is more than just installing solar panels. There are many aspects you have to look at to engineer, design and install your solar system. So that begs the question, what kind of person or company can help from the start
