## Solar energy companies rome

For large solar projects in Rome, it is recommended to contact a local solar company that can handle the installation and maintenance of the solar panels. Local solar companies are well-versed with regional regulations and climate conditions, ensuring a smooth and efficient process.

Before making a decision, consider factors such as technology compatibility, features, and the expertise of installers. Researching different brands and dealers can help you make an informed choice for your solar panel purchase.

The sun shines everywhere in Italy, but not all the time. SI Solar Investments is one of the leading players in photovoltaic implementation in Italy, combining photovoltaic projects with storage, in an agricultural or a commercial/industrial context, to satisfy real client needs.

We are watching out for projects in Italy. We are interested in co-developing green field and commercial/industrial roof top PV projects in Italy and we welcome developers to get in contact with us! The projects can be in an early development phase, but also ready to build!

Enel Green Power S.p.A. is an Italian multinational renewable energy corporation, headquartered in Rome. The company was formed as a subsidiary of the power generation firm Enel in December 2008. It has operations in five continents generating energy from solar, geothermal, wind and hydropower sources. As of 2024, it manages a capacity of 63,8 GW (2 GW Storage), with an annual production of 75.95 TWh and has over 1300 plants worldwide.

From 2010 to 2016, the company was listed on the FTSE MIB index of the Milan Stock Exchange, as well as on the Madrid Stock Exchange and the Barcelona, Bilbao, and Valencia regional Stock Exchanges.

In 2017, the company partnered with Anheuser-Busch to provide enough renewable energy from Enel's Oklahoma wind farm to meet Budweiser's needs for 15 years.

On October 25, 2023, Enel Green Power announced the sale of its stakes in Romania to the Greek company Public Power Corporation S.A., as outlined in the sales agreement signed on March 9, 2023. This transaction aligns with the Group's Strategic Priorities, involving Enel's repositioning in countries with a more integrated presence, including Italy, Spain, the United States, Brazil, Chile, and Colombia.

In May 2024, Enel announced that its subsidiary Enel Per? has sold all its equity stakes in Enel Generacion Per? and Compania Energ?tica Veracruz to Niagara Energy. This sale was planned in the 2024-2026 Strategic Plan.
