

Solar epc companies

Solar epc companies

This is the list of 2024 Top Solar Contractors that primarily perform engineering, procurement and construction (EPC) work. These companies chose their primary service as "EPC" when applying to the list, and they may also work as developers, installers, electrical subcontractors, installation subcontractors and sales partners. The listed kilowatts installed by each company could be performed within multiple services and not just EPC work.

This is the list of 2023 Top Solar Contractors that primarily perform engineering, procurement and construction (EPC) work. These companies chose their primary service as "EPC" when applying to the list, and they may also work as developers, installers, electrical subcontractors, installation subcontractors and sales partners. The listed kilowatts installed by each company could be performed within multiple services and not just EPC work.

When you need a company to manage the build-out of your solar project, you can rely on the team at Blue Ridge Power to get it done. We are one of the largest independent EPC solar contractors in the country with full-scale solar energy solutions including engineering, solar site design, procurement, pre-construction, construction and operational management of solar energy assets.

We rely on trusted industry relationships and experience from our in-house team of professionals ranging from electricians to engineers. We work with clients on every detail of the commercial solar panel construction process. With 7GWdc of projects under our workbelts, we understand complex projects and pride ourselves on quality control, safety and craftsmanship.

Named the #7 "Top Solar EPC" by Solar Power World in 2023, Blue Ridge Power is also the largest EPC on the 2023 Top North Carolina Solar Contractors list with 1.5 GW currently under construction across the U.S.

During construction, we handle logistics coordination, critical path management, progress reporting, safety training, quality assurance/control and SWPPP management. We also are adept at battery storage and substation construction.

Blue Ridge Power places the utmost value on the safety and health of our employees, subcontractors, clients and the communities we serve. To prevent construction hazards and ensure job site safety, we employ a 360-degree internal quality control program with specific construction safety protocols and checks.

We believe in the power of creating an invigorated American workforce. Achieving that includes offering a robust benefits package that shows our employees we mean what we say. We offer 100% employee medical coverage, 401K matching, dog-friendly offices and flexible paid time off.
