Solar ghana registration gov

This is official registration of persons born within the boundaries of Ghana by the Registry. The registration of birth is done in the district in which the birth occurred and by the following persons; the father/mother and or both parents, the next of kin of either parents, occupier of the premises which the child was born, an adult present at birth or a care taker of the child.

Name of child
Date of birth (would have already been indicated in the maternal health record book)
Place of birth (would have already been indicated in the maternal health record book)
Father's name, age, occupation, religion, nationality and educational background
Mother's name, age, occupation, religion, nationality and educational background

Name of child
Date of birth (would have already been indicated in the evidence of birth)
Place of birth (would have already been indicated in the evidence of birth)
Father's name, age, occupation, religion, nationality and educational background
Mother's name, age, occupation, religion, nationality and educational background

Births and Deaths Registry accepts no responsibility for services rendered and monies paid to any other person outside this digital payment platform. Anybody who commits him/herself to any of these does at his/her own risk.

We firmly believe that the internet should be available and accessible to anyone, and are committed to providing a website that is accessible to the widest possible audience, regardless of circumstance and ability.

To fulfill this, we aim to adhere as strictly as possible to the World Wide Web Consortium's (W3C) Web Content Accessibility Guidelines 2.1 (WCAG 2.1) at the AA level. These guidelines explain how to make web content accessible to people with a wide array of disabilities. Complying with those guidelines helps us ensure that the website is accessible to all people: blind people, people with motor impairments, visual impairment, cognitive disabilities, and more.

This website utilizes various technologies that are meant to make it as accessible as possible at all times. We utilize an accessibility interface that allows persons with specific disabilities to adjust the website's UI (user interface) and design it to their personal needs.

Additionally, the website utilizes an AI-based application that runs in the background and optimizes its accessibility level constantly. This application remediates the website's HTML, adapts its functionality and behavior for screen-readers used by the blind users, and for keyboard functions used by individuals with motor impairments.

Our website implements the ARIA attributes (Accessible Rich Internet Applications) technique, alongside

various different behavioral changes, to ensure blind users visiting with screen-readers are able to read, comprehend, and enjoy the website's functions. As soon as a user with a screen-reader enters your site, they immediately receive a prompt to enter the Screen-Reader Profile so they can browse and operate your site effectively. Here's how our website covers some of the most important screen-reader requirements, alongside console screenshots of code examples:

We aim to support the widest array of browsers and assistive technologies as possible, so our users can choose the best fitting tools for them, with as few limitations as possible. Therefore, we have worked very hard to be able to support all major systems that comprise over 95% of the user market share including Google Chrome, Mozilla Firefox, Apple Safari, Opera and Microsoft Edge, JAWS and NVDA (screen readers).

Despite our very best efforts to allow anybody to adjust the website to their needs. There may still be pages or sections that are not fully accessible, are in the process of becoming accessible, or are lacking an adequate technological solution to make them accessible. Still, we are continually improving our accessibility, adding, updating and improving its options and features, and developing and adopting new technologies. All this is meant to reach the optimal level of accessibility, following technological advancements. For any assistance, please reach out to
