

Solar hybrid air conditioner quot ghana quot

Solar hybrid air conditioner quot ghana quot

Hello! We do, and the price depends on your location! You can add installation once you"re in the checkout, or you can call us on 0330 041 2742. You can ask more questions about the product or our services through the phone, place an order, and book your installation date! I hope it helps! Thank you!

Being able to control the air conditioner using my smartphone is a real game changer in my book. After all, who needs another remote control lying about the house. This way, I can simply take out my phone, which is always close at hand, and set the temperature to what I like in a couple of swipes. Plus, it connects via Wi-Fi so I can control or monitor it from anywhere!

Connect the iQool18 to your home WiFi network and use your smartphone or home assistant to adjust temperature, fan speed, and more from anywhere. Schedule from your smart device or use the 24-hour timer to program cooling or heating to suit your routine, and get rooms to temperature ready for your arrival. Smart scheduling saves you money.
