

Solar light kits in ghana

Solar light kits in ghana

This solar lamp post, with dual lamp heads, stands 2.1 metres tall and is the perfect addition for your home to provide gorgeous lighting to your garden and surrounding pathways and even your driveway! The lamp post has a clever dual brightness setting which works to conserve the battery's charge as much as possible. The high brightness setting is great for summer, with fewer hours of darkness. The low brightness setting however is suited to winter when there are very little hours of bright sunlight where your light will operate of the battery longer.

Available in a pack of 2, 4 and 8, you'll be falling in love with these rose gold stake lights in no time. These robust stakes are crafted from a combination of stainless steel, plastic and glass, offering a high quality and elegant feel in your outdoor spaces. Designed with a glass wave-pattern centre, the the warm white LED is housed inside the glass middle.

The integrated solar panel sits on top of the stake light including 1 x 1.2 AA 300 Ni-MH battery that charges the panel, creating an extra bright light that glows from within the rose gold exterior.

Sit back and relax on spring/summer evenings in the glow of warm white light. These sturdy stakes stand at 42cm tall and are sure to make a glowing impression on all that surrounds them.

Adorned with 4 dazzling LED bulbs on either side, these versatile solar powered lights allow you to shine a spotlight in two different directions at once. This ingenious design, coupled with the integrated rechargeable battery means that you can illuminate more space easier than ever before.

Installing these lights couldn't be easier, simply decide where you'd like to place it, in a sunny spot for maximum charge, secure it in place with the installation kit (included), and away you glow.

Made from sturdy stainless steel and coated in iron powder, this outdoor stake light is sure to make an impression lining your garden paths, complimenting flowerbeds or lighting up entryways. This funky light emits an eye-catching 360 degree pattern, detailing small and dainty circles surrounding the stylish, silver light in a silhouette fashion.

This durable stake light offers a bright white glow coming from a single LED that is housed within the centre of the stake light. The stylish exterior lends itself to a large variety of gardens, no matter the shape, size or style. If all that's not enough, it's also solar powered! This beautiful stake illuminates by using sunlight, and comes with 1 x 1.2V AA 600mAh Ni-MH internal, rechargeable battery that will keep your brand new light illuminated as soon as outdoor light levels are reduced.
