Breathe life into your garden with this traditional crook lantern design. The TrueFlame USB Solar Crook lantern features a charming flickering flame effect, which looks and moves exactly like a real flame. This solar powered outdoor lantern is perfect for marking borders, flower beds and paths and truly is versatile by removing the lantern from its crook stake, you can add a new dimension to your alfresco dining table or decking.

This beautifully designed outdoor solar powered lantern is highly efficient with no mains power necessary and super simple installation. You can rest assured that your lantern will always deliver stupendous style with added optional power saving mode and USB charging feature.

As you are able to USB charge them if needed and put them in powersaving mode, it wouldn't matter too much about the amount of sun as you can top up with USB, however if you were purely relying on the sun then I would not place it somewhere heavily shaded.

This 24V solar charging system is perfect for remote homes, home offices, summer houses, workshops, caravans, and stables. The kit includes pre-crimped cables and all essential accessories, ensuring easy setup and excellent value.

With Voltanic, beauty and efficiency aren't just a first impression; they're a lasting commitment. Our panels meet strict industry standards for quality and performance, with benefits including anti-reflective coating, IP68 waterproofing and MC4 connectors.

Keep your batteries safe with our high-end MPPT 60A model. They maximize solar power harvesting, capturing up to 99% of available energy, and ensure battery longevity and safety with a 4-stage charging cycle.
