Sonnen eco

Born of German Engineering and American ingenuity, sonnen products are designed to manage and store energy to increase the flexibility of our energy system and provide you with greater energy independence while enabling the energy future.

At sonnen we believe in clean, reliable, and affordable energy for all. Our world-class products provide energy benefits that go Beyond Backup Power and Beyond Net-metering to maximize your clean energy investments.

As subject matter experts, we provide only objective information. We design every article to provide you with deeply-researched, factual, useful information so that you can make informed home electrification and financial decisions. We have:

We won't charge you anything to get quotes through our marketplace. Instead, installers and other service providers pay us a small fee to participate after we vet them for reliability and suitability. To learn more, read about how we make money, our Dispute Resolution Service, and our Editorial Guidelines.

This is an unbiased review: EnergySage is not paid to review brands or products, nor do we earn money from affiliate advertising in this article. The content of this blog is based on research and information available at the time of writing. Learn more about our mission and how we make money as a company.

The sonnen eco, sonnenCore, and ecoLinx batteries are ideal pairings for solar panel systems, especially if your utility has reduced or removed net metering, time-of-use rates, or demand charges. Installing an energy storage solution like the sonnen eco, sonnenCore, or ecoLinx allows you to maintain a sustained power supply during the day or night as long as you store enough power from your solar panels when the sun is shining.
