Sukhumi solar energy jobs

A role with SSE - the leading developer and operator of low-carbon electricity in the UK and Ireland - is an opportunity to build a rewarding career, and a way to help build a world that's cleaner, greener, and fairer for all.

We're investing ?20.5 billion over the next few years in major projects like building the world's largest windfarm, that will provide vital low-carbon electricity for millions of people. And building flexible networks to deliver the sustainable energy we all need to heat our homes and businesses, drive our cars, and power our lives.

We're a real Living Wage and Fair Tax Mark accredited company and currently employ 14,500 people across the UK and Ireland. We offer diverse career opportunities across the UK and Ireland, agile working and excellent benefits.

We offer our people lots of benefits and services to support their health and wellbeing, helping you find ways to balance all your roles and responsibilities and work towards a healthier, happier life.

Whether you spend your day on top of a turbine at a wind farm, engaging directly with customers, supporting our power network infrastructure or in the hustle and bustle of one of our major offices; careers at SSE are challenging, motivating and make a direct impact on the UK's journey to net zero. We take care of our people, our customers and the communities we serve.

At SSE, we're on a mission to empower more female talent in business leadership. We recognise everyone's career aspirations look slightly different. We're working to create a culture where equality, fairness and diversity are not just intentions but actions.

Innovative solutions to climate change need diverse perspectives, different experiences and new skills. That's why our plans to create a workplace where the principles of equality, fairness, diversity and inclusion are at the heart of everything we do.

At SSE, everyone gives their best every day to build a better world of energy. Our flexible benefits package is our way of saying thanks. It's designed to support the important things in life, like family commitments and finances, wellbeing, and work / life balance. Take a look at some of the highlights.

We have been made aware of a scam where people are being approached by individuals posing as employees from SSE Energy Services. They are being given fake information around contact details, interviews and are also being asked for bank details.

Sukhumi solar energy jobs

If you have applied for roles with SSE, you will not receive any communications from SSE Energy Services. SSE Energy Services is now owned and operated by OVO Energy and is no longer part of SSE.
