

Sunsynk Lifelynk X 3 6kW Inverter amp Battery

Sunsynk Lifelynk X 3 6kW Inverter amp Battery

As the demand for sustainable living and cost-efficient energy solutions continues to skyrocket, Sunsynk Mobile are proud to introduce the Sunsynk Lifelynk X 3.6kW All-in-one Inverter. The Lifelynk X model offers a 3.6kW hybrid inverter along with a 3.84kWh battery all in a single unit.

The Sunsynk Lifelynk X 3.6kW Hybrid Inverter comes complete with everything you need to install for a true plug and play system. In-built connection points give access to the Load, Grid, CT, and WiFi data logger ports.

As your energy needs grow, the Sunsynk Lifelynk X grows with you. The system easily expands, supporting parallel connections with up to 6 modules, and can also seamlessly integrate with traditional solar storage batteries for enhanced scalability and flexibility. The Lifelynk Series meets your energy needs now and in the future.

Established over 20 years ago, Sunsynk has solidified its position as a prolific brand, specialising in cutting-edge solar storage solutions. Sunsynk offer a diverse range of products, their inverters and battery storage systems are designed to cater to the needs of clients seeking both off-grid and on-grid solutions.

When combined with battery storage, the Sunsynk Lifelynk X 3.6kW All-in-One has been designed to work seamlessly with smart energy tariffs. The first energy supplier to offer such a tariff is Octopus Energy, however the Sunsynk battery system works perfectly with any other energy provider.

The Sunsynk Lifelynk X 3.6kW is a true all-in-one, plug-and-play, expandable inverter that has been created to simplify and speed up installation. This makes it perfect for small installations, retrofits or for large volume roll-outs in new build houses.

Growatt now have over 1.5GW worth of inverters installed worldwide and were the first inverter manufacturer to be awarded A+ rating by Photon. They also boast the highest ever inverter efficiency ever achieved (99.06% with the 20000HE model) and are constantly striving to reach higher efficiencies across their product range.

For monitoring you can add a ShineWiFi. Please note, the Growatt Installer Code Policy is being introduced in the UK and Ireland. It means all installers will need to register an "Installer Code" for using the Growatt monitoring platform. This installer code can be provided to the end user by the installer to allow for the viewing of your devices from your installer-level monitoring account. For more information, please refer to the following document: [Growatt Installer Code policy](#)

Can end-users purchase this product to save money on the cost of a replacement inverter? Yes, of course! Simply purchase the inverter and arrange for a local qualified electrician to install the unit for you (should be a 1-2 hour call-out). By sourcing the inverter yourself, you can make a huge saving on the prices quoted by installation companies for supply and fit services.

The market leading high-voltage SolaX Triple Power 5.8kWh SLAVE battery from SolaX/Triple Power is compatible with the full range of SolaX High Voltage hybrid inverters and AC chargers.

The all new Solis 1.5kW Mini S6 Series grid-tie solar inverter has a compact and lightweight design for easy installation. It is fan-less and therefore produces minimal noise (less than 20 dBA.)

For monitoring you can add a WiFi Dongle which can be purchased [HERE](#) or by selecting the add-on below. This enables you to make use of the Solis Cloud Remote Monitoring Platform.
