

Tech Trolley

Tech Trolley

Over the years our service has expanded and improved to match customer wants and needs. We now offer an ever expanding variety of new and refurbished technology including our original phones and laptops but also tablets, gaming consoles, PC's and accessories as well as repair services and trade in options. The best part is, we are accessible nationwide!

Whilst we have made a real ripple sending out fantastic devices, our customers wondered what they could do with their old technology so we created a trade in option. Not only does this help our customers get the most for their unused tech, it also encourages recycling and cuts down on electrical waste. When you trade in with us, you could put it towards a new product or simply take the cash.

If you're looking to keep hold of your devices for a long time, they might need some TLC from time to time. We can help with that too! Our team of friendly tech-xperts are on hand daily and can provide anything from a screen replacement to a motherboard repair. Don't forget, we always offer free diagnosis!
