

## Types of lfp batteries

AVON Batteries have been developing and adapting to new technologies for over 50 years in the battery industry. Starting from a small range to now where AVON Batteries have a family of products under their brand name. They now have over 150 part numbers which covers a vast selection of technologies and applications. The AVON Brand has always stood for Quality, Durability, Availability and Performance at Exceptional Value.

AVON products are sourced from the world's leading manufacturers, and rigorous testing procedures ensure that only the very best products are included in the AVON brand. As well as conventional batteries, the AVON range incorporates many specialist products, including AVON LFP- Lithium Batteries, Start Stop and EFB Batteries, Solar Panel Fencer Kits, AVON ADC - AGM Gel Batteries, Bespoke Battery Packs, Charging and Testing Equipment and much more!

- o Longer Cycle Life: Offers up to 20 times longer cycle life and five times longer float/calendar life than lead acid battery, helping to minimise replacement cost and reduce total cost of ownership.
