

Types of lithium battery

Types of lithium battery

The six lithium-ion battery types that we will be comparing are Lithium Cobalt Oxide, Lithium Manganese Oxide, Lithium Nickel Manganese Cobalt Oxide, Lithium Iron Phosphate, Lithium Nickel Cobalt Aluminum Oxide, and...

Introducing our Lithium-ion Battery Module - an ideal energy storage solution that pairs seamlessly with Voltacon and Voltronic off-grid inverters, hybrid inverters, and BESS systems, specifically compatible with 3000W to 5500W hybrid inverter models. This battery is crafted to integrate efficiently into a wide range of 24V DC solar inverters, making it a versatile choice for both off-grid and hybrid setups.

Durable IP65 Metallic Enclosure: Built to withstand demanding environments, this battery is housed in a rugged IP65-rated metallic casing, suitable for both indoor and outdoor wall-mounted installations.

Built-in Active Cell Balancing: Advanced active cell balancing redistributes charge between cells during charging and discharging, enhancing system runtime by maximising usable charge, reducing charge times, and minimising heat output, thus ensuring optimal battery performance and lifespan.

Our lithium-ion battery module is engineered to deliver reliable, efficient, and economical energy storage, making it the perfect companion for our premium range of off-grid inverters and other compatible solar inverters on the market.

If you are unhappy in any way with your purchase, you can return it for a refund or a replacement, as long as you return it in the same condition as it arrived (original/undamaged packaging and product) and within 30 days of receiving it. We will pay for your return postage on a faulty item as long as you send it using Royal Mail 2nd class recorded delivery (for EU or International Shipments, you have to use our UPS account, we will provide you with a return label)

IMPORTANT: We need to be able to identify an item with your order. We can only do this if you follow our returns process. Please do not send us items back that do not follow this process as they cannot be identified properly and will not be replaced or refunded.
