

# Victron 12 8V Lithium LiFePO4 200ah Battery

Victron 12 8V Lithium LiFePO4 200ah Battery

The battery cells in the Smart Lithium batteries are protected against over-charge, under-charge, charging at too low temperatures as well as charging at too high temperatures.

Fitting and Installation Service: In addition to a fitting service for motorhome and caravan solar panel kits we also install a wide range of accessories via our sister company the Motorhome Workshop, including Gas Systems, Generators, Reversing Cameras, WiFi and more.

As part of the protection the battery has an integrated Balancing, Temperature and Voltage control system, the BTV. The BTV connects to an external Battery Management System, the BMS.
