Weize has customer service support that you can call and talk to them. Most all others will only do a chat . Speaking with an actual customer service representative is worth a lot and gives the customer piece of mind . Thank you Weize . Every one should check this company out !!!

I purchased two batteries through Amazon and was very impressed with the batteries. So this time I purchased them directly from Weize. Regret not purchasing self heating batteries.

Great battery for the money. Battery tester shows results up to spec. Low resistance and cracking test voltage drops to 12. Fast shipping and battery packed well. Overall happy with purchase!

Quick ship & perfect fit in my trusty old 2005 Suzuki Grand Vitara. Arrived fully charged. Price was much better than any local competitor. Only time will tell how long this will last, hopefully similar to others I've had in this car which averaged over 6 years.
