I took a long time to select a solar installer and was happy with the selection of Solar Dynamics at price for like for like system. Good pre-contract advice and communication? Prompt start on site, with good installation team. I did have some post installation issues with a faulty inverter, but Robin was very prompt to swap over once the issue was identified. Good communication

Solar Dynamics recently installed our panels and battery in Balcombe. They were clear with what we needed, no hard selling tactics and Mike was honest about what we also didn't need. The install was quick, clean and tidy, and the team were happy to answer all our questions along the way. Would thoroughly recommend!!

We commissioned the installation to obtain an 'E' EPC rating which we required to enable us to rent out a Victorian railway station as offices. The building is at the heart of a village (Groombridge) and we were very keen for the installation to be as unobtrusive as possible. Solar Dynamics were able, with difficulty, to mount all 15 panels on the rear of the building. This enabled the front of the station to remain totally unspoilt. We were delighted with the end result.
